## **CSU** The California State University PROGRAM FOR EDUCATION AND RESEARCH IN BIOTECHNOLOGY

Dr. Susan Baxter, Executive Director of CSUPERB (California State University Program for Education and Research in Biotechnology) will be at HSU Thursday, **October 24** and Friday, **October 25** to meet with faculty, students, and administrators interested in CSUPERB funding opportunities and information about life sciences.

Susan Baxter is responsible for strategic planning and new initiatives related to the life sciences across the 23 campuses of the CSU system. She oversees and manages grants and awards programs

for CSU faculty and students system-wide, organizes the annual CSU biotechnology symposium, develops new research and educational program opportunities, and serves as a liaison for the CSU with life sciences industry, government, philanthropic and educational partners.

CSUPERB's mission is to develop a professional biotechnology workforce by mobilizing and supporting collaborative CSU student and faculty research, innovating educational practices, and responding to and anticipating the needs of the life science industry.
