

## Major Change Request for Students with Senior Standing

Students are not permitted to change majors after they have earned 90 units, unless the new major can be completed in less than 140 total units.

I have built and attached a DARS plan for the proposed new major.  
I understand that:

- students are not permitted to change majors after earning 90 units, unless they can complete the new major in less than 140 total units.
- a change of major may affect financial aid;
- this request may change my major catalog year;
- indicating a preferred advisor does not guarantee availability
